OUR GIFT TO YOU

From decorating to baking, wrapping to entertaining, we present you with our best ideas for the holidays.

Merry MINGLING

Swirly, curvy; topsy, turvy. Whimsical accents turn an ordinary dining room into a Yuletide playground where guests of all ages can truly feel young at heart.

Some of the best Christmas memories are wrapped up in childhood—teddy bears and footed pajamas, hot chocolate and stocking surprises. Celebrate the wonderment of those precious years with a tablescape that personifies jubilation.

Instead of a centerpiece, craft a display that is off center. Dr. Suessical twirlies in classic stripes lend height and curiosity to the look, while pretty packages balance the table as they follow a lovely red runner from end to end. Adorable creatures and critters, some caroling and others capitalizing on sheer cuteness, only multiply the merriment and mirth. Holiday china with two-toned motifs lends sophistication to this happy medley, and alternating red and green plates and mugs make the look even more eye catching. To punch up the palette, tuck vibrant ornaments in funny shapes, such as larger-than-life-sized lightbulbs and tubby tin soldiers, into the assemblage, and secure guest satisfaction with a place card that doubles as a take-home tree trimmer.
